

CS 506 NAACP Scrum Report

What have I worked on?

- Met with Erica Gunn to go over on what has been done on the data visualization side and get some advice for future improvement.
- Started working on entity recognition
- Continued working on bi-directional lstm to make improvements.

What will I be working on?

- Finish the second iteration for the data visualization so we can present it to our client
- Get some results for entity recognition
- Start implementing topic modeling to our data sets

Have I talked to the client recently? When are we meeting with them next?

- We met with our client on Friday November 13 and filled them on what has been done and what will be done next.
